

PINNACLES PREP

SMALL SCHOOL. BIG DIFFERENCE.

Pinnacles Prep is the only high quality, free public middle school and high school charter option for families in the Wenatchee Valley. In August 2021, we will start by serving students in grades 6 and 7, eventually growing to serve grades 6-12 by 2026. Our students want more than what a traditional school has to offer; they yearn to chase their curiosity and learn about themselves, their talents, and what role they will play in making our world a better place.

WE BELIEVE IN:

High expectations and equity for *all* students

Every Pinnacles Prep student will graduate college, career, and community ready, equipped with the knowledge, skills, mindsets, and connections needed to become leaders in our Valley and beyond.

Learning beyond classroom walls

Our students collaborate with community partners to apply their learning to real world problems, engage in critical thinking, and gain confidence to prepare them for life beyond our walls.

Taking care of the whole child

Student success includes more than just academics. Students should be able to design and pursue the life they envision, building an understanding of who they are and how their passions align with what the world needs.

Community-centered schools

Schools should be connection hubs, providing resources and enrichment that will better our community. Together, we are building a school that not only cultivates the future leaders of our Valley but also celebrates the cultures and traditions that make Wenatchee unique.

WHAT MAKES US DIFFERENT:

We focus on relationships

Our small size allows for the time and capacity to build connections so that each student is known and seen.

We offer relevant, personalized education

Our approach to learning allows students to pursue hands-on, engaging projects in authentic settings.

We ensure more than just a diploma

Our graduates will be armed with the knowledge, skills, and mindsets needed to become purpose-driven, engaged citizens with the social capital and connections to lead in our community.

We are intentionally diverse

Our world is diverse and our school community is reflective of the cultures and socio-economic conditions of the broader Wenatchee Valley.

We are a charter school

Charter schools are publicly-funded, tuition-free schools that are open to all students. We are held accountable to state and national standards but also have the flexibility to personalize our approach to meet student needs.
